## MISCELLANEOUS

1969 Datsun 510 Info Needed. I recently bought the car (PL510050540) a regional-type race car, from a Cleveland area couple who owned it since 1977, raced it until 1981 and parked it in their garage. They bought it from Gary Hart (Toledo) who reportedly acquired it from someone in Detroit area. The only logbook is Mr. Hart's who registered the car in

'77 in the Columbus region. I'm trying to trace the earlier history of the car. The owners were told by Hart that it was among several cars that were sponsored by the Detroit area Datsun dealers and that it had been a race car since new. Some spares and a few receipts that came with it confirm the Detroit connection: spare door and front fender with the number 28 and typical red-white-blue striping probably came from a car that Byron Walker raced and totaled (according to a phone call I had with him): a counter receipt from Leo Adler Datsun of Farmington for a service manual bought in 1975; and an undated machine shop work order for a customer named Pete Kuperus (ring any bells?) Original color Pea Green. Original race colors probably Nissan red-white-blue but someone later painted it white with yellow interior and flat black hood and "v" shape on front panel. BRE flares are pop-riveted on the rear with BRE fiberglass flares in front. Car came with American Libre wheels, 1600 and 1800 engines, Datsun 2000 transmissions, a few BRE items, etc. Whoever put it together originally did a nice job but nothing too tricky. The tunnel mounted switch panel includes marker- and head-light switches and there are mounting holes in the doors and roof for marker lights. Was this a rally car or did you folks race in the dark in those days? I would be interested in any information that would lead me to the '69-'77 builders, owners, racers, events, paint scheme, photos of comparable cars, etc., as I am preparing it for historic racing.
